Beauty of color painting.

Nice shades of color like I. & M. Oxedo Yellow or Silver Gray, and lid trim of Olive or Shaker Green with ornament and wear, when used adding 3-4 of a gallon of Oil to ch gallon of the L. & M. colors as outlined at Factory. Then the paint costs only about .60 per gallon because the user itself makes about half the paint, and reduces cost by adding oil.

Geyser Being Restored.

Washington, Oct. 20.—Referring to day to recent publications relative to the restoration of the large fountain or geyser which for many years played at Round Knob, N. C., a sight of passing trains on the Southern Railway, President Finley said:

"There seems to be some misapprehension as to the restoration of this geyser. On a trip which he made through Western N. C. several months ago, Mr. George F. Baker, of New York, noted that the geyser was no longer flowing. Inquiries having satisfied him that it would be practicable to restore it, he arranged to have the work done entirely at his expense as a testimonial of his high appreciation of the great service rendered by his friend Colonel Alexander B. Andrews, of Raleigh, N. C., First Vice-President of the Southern Railway Company in the development of Western North Carolina.

"The work of restoration is now under way and the new geyser will soon be in operation, throwing a column of water 250 feet in the air."

5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c. 9-29 8w.

AVERTS AWFUL TRAGEDY.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by All Druggists.

THE CHILDREN LIKE IT KENNEDY'S LAXATIVE COUGH SYRUP

Gumption on the Farm.

Perhaps some of your crops have disappointed you this year, but if you sowed a few seeds of kindness, as we advised last spring, that crop did not disappoint you. Another thing: If you didn't plant them 'tis not yet too late—this is one of the best "catch" crops known. Try it.

Scarcely any farmers in Congress, we don't like it.

There are few things in life more despicable than the man who blames it on his wife.

Looking at the sun through a whiskey glass shows the picture of the poorhouse and thin soup.

In these days of muck-raking, the farmer who is able to rake up a good compost heap stands to win.

Somebody has said that a dog with no teeth has a soft snap. We'd rather think that he has no snap at all.

Corn in the crib is just in the right spot, but is the spot right? Or will the rats get more than their share of it?

Don't forget to save out corn for seed while you are husking it. Just because an ear of corn is large, does not necessarily make it the best for seed. See that the rows are straight from tip to butt, and that the kernels are all well formed and plump.

In the large producing sections cabbages are stored in specially prepared frost-proof houses. But they are often stored in cellars, barns or caves. Some growers store in pits and there is no better way to keep the heads crisp and fresh. The main thing is to keep out frost and provide for ventilation. Whatever the plan of storing, don't wait for freezing weather before harvesting.

Many a good man is in such haste to let the world know where he stands on the tariff, reciprocity, and the direct election of Senators, that his patient wife can not find out where he stands on the important domestic questions of water in the house and a new carpet for the parlor. Save the country, brethren; that's right; but don't forget to save the wife, for after all what is the country to you when you have lost a good helpmeet?

From October Farm Journal.

YOU SUCCEED BECAUSE

You think right. Corporations, Organizations, Associations and Institutions succeed because right thinking guides them, this grade of thought never trifles with financial matters; on the contrary, it gives them the keenest consideration. You, too, will succeed if you think right and plan your money matters on a Check account basis. Facts prove that some of the most successful men of our day built their success on a Check Account which was started in a modest manner. In thinking right you will discover that a Check Account does not need you, but unless you have one you need it. Open your Check account at this bank.

Bogus Cloth.

What is paint? Some people think anything labelled "paint" is paint, but there's a difference, just as much as between one kind of cloth and another. Cloth nine-tenths cotton and one-tenth wool, is bogus cloth. Cloth all wool wears to the limit. Paint at a price between 75 cents and \$1.50 is like bogus cloth. The L. & M. Paint is all wool and wears to the limit. There's a reason. Holman-Cullum Hwd. Co.

THE STATE FAIR.
The State Fair this year will be held October 30th to and inclusive of November 3rd.
There are more reasons than ever why the people of South Carolina should take this one holiday and meet at the State Fair.
Reduced railroad rates have been announced for the round trip.

IS THE WORLD GROWING BETTER.

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see. 50c at All Druggists.

TAKING CARE OF THE FAIR CROWDS.

Those Who Cannot Remain in Columbia Longer Than One Day Can See the Fair.
With the railroads granting reduced rates, and with the State Fair larger and better than ever, it is believed that banner crowds will attend the annual event, which will be held in Columbia October 30 to November 3, next.
The railroads not only have offered the usual low rates, but have made arrangements to run special trains during Fair Week for the accommodation of the throngs of South Carolinians expecting to attend.
These special trains are so arranged as to offer to people outside the capital city a chance to make a one day trip to the Fair with no inconvenience caused by lack of trains. The schedules call for morning trains to Columbia—which will reach the capital before 11 o'clock in plenty of time for all festivities—and for evening trains returning after the events of the day are concluded.
The railroad authorities look for good crowds on these special trains.

House of Jones.

Jones painted his house last year. It looks dull, dead, no life to it. Smith painted his house 10 years ago. It looks clean, nice, and don't need repainting, because he used L. & M. Paint, and added three quarts of oil to each gallon.
The Oil gave life and preserved it.
Besides—adding the Oil reduced its cost 40 cents a gallon less than other paint.

Prizes to Apple Growers of the South.

Spokane, Wash., Oct. 28.—Robert S. Walker, managing editor of the Southern Fruit-Grower of Chattanooga, Tenn., says in a letter to the management of the National Apple Show, Inc., that the value of the annual competitive exposition in Spokane, November 23 to 30, to the apple growers of America cannot be over-estimated. He has entered the Southern States special, in which are offered cash prizes of \$40 to first and \$20 to second with patented fruit buckets, as added premiums for exhibits of one barrel or three boxes of a bushel each, limited to Alabama; Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Oklahoma, Tennessee, Texas, Virginia and West Virginia.

Cash prizes and premiums of a total value of \$20,000 are offered in the various competitions ranging from full carloads to single plates of five apples and all contests are free and open to the world.

"When a body of men become so interested in the things which they produce that they strive to out rival their competitors in a friendly sort of way," Mr. Walker continues in his letter, "it gives that business an impetus that can hardly be equalled. It interests others and impresses the fact upon the minds of the public that the growing of apples is an industry requiring education and has become an art, instead of a business in which anyone may leisurely engage and be successful.

Then the value of apple lands and apple orchards are enhanced greatly. The demand for apples is certainly increased; the apples from various sections participating in such an undertaking are advertised to the world, and the publicity resulting therefrom is worth a great deal, and is as valuable an asset to it as the good will is to any business enterprise.

"Being world-wide in its scope, it is far reaching. When the National Apple Show was first launched, filled with jealousy, apple growers in various sections hastily proclaimed that it was a pet scheme of the Northwestern growers to advertise their apples and to sell their fruit lands.

"Time has proven that this is untrue. The men who have been in charge of this great undertaking, have proven themselves to be broad-minded; have implicit faith in their own sections and its possibilities, yet have been broad enough to realize that there are other good sections, and they have made an effort to see that all competitive exhibits have had equal chances for winning prizes.

"With a continued broad-minded management, the National Apple Show is certainly to increase in importance, and the barrier of jealousy that may exist, if there be such now, will soon be torn away. In our opinion an apple grower, no matter what section he hails from should give his support to this enterprise, national in character, and if he can do nothing else, take the time to pay a visit to the show in November."

A MEDICINE THAT GIVES CONFIDENCE

Is Foley's Honey and Tar Compound? Mrs. F. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes "For a number of years my children have been subject to coughs and colds. I used Foley's Honey and Tar Compound and found that it cured their coughs and colds, so I keep it in the house all the time." Refuse substitutes. Sold by All Druggists.

THE HOME CIRCLE

PLEASANT EVENING READER A Column Dedicated to Tired Mothers Home Circle at Evening

The woman whose life-book has love written on every page; who makes a home for a man, a home in a house and in a heart, a home that he is sure of, a home that is full of love presided over by one whose price is above rubies. She is the model wife.

Of all the evils prevailing among young men we know of none more blighting in its moral effects than the tendency to speak slightly of the virtue of women. Nor is there anything in which young men are so thoroughly mistaken as the low estimate they form of the integrity of women—not of their own mothers and sisters, thank God, but of others, who, they forget, are somebody else's mothers and sisters.

Success is never obtained in a country like this without effort. If you fall once, try again. If you fall down, get up. If it is dark, strike a light. If you are in the shade move around; if there is shade on one side there is sure to be sunshine on the other. It takes longer to skin an elephant than a mouse, but then the skin is worth something. Never be content with doing what another has done—excel him.

There is an old saying to the effect that an untidy mother has disobedient children, and, while neither parents or children may realize the why or wherefore of it, yet there is always a lack of respect and an indifference to the authority of a mother who takes no pride in her personal appearance.

The meanest men in the world are those who have allowed themselves to drift away from their mothers and forget all about them. The best and bravest men in the world are those who have never been so proud as when doing something pleasant for the kind old mother.

If you think a house should have only one head, and that be yours, postpone your wedding indefinitely.

FOLEY KIDNEY PILLS

Supply just the ingredients needed to build up, strengthen and restore the natural action of the kidneys and bladder. Specially prepared for backache, headache, nervousness, rheumatism and all kidney, bladder and urinary irregularities. All Druggists.

Who does not feel nervous and contented for a moment? How a genial "good" does not make himself the center of these little experiments of feeling and good will? Shows a still, unobtrusive reserve and especially selfish and envious.

There is a certain species of reptile found in all parts of the human world; its habit is to creep through the jungles and wilderness, as you might suppose. This creature frequents the haunts of the actor; cities, villages and the sparsely populated neighborhood, and all claim its attention. The name of this serpent is slanders. We hope it has no abiding place in the home of any of our readers. The Home Circle department is the best antidote yet discovered for this vile reptile, and seldom fails to drive it from the home it weekly visits.

Let the sunshine into the gloomy rooms, have a couch to lie on, a piano to play on; in fact, a home to live in; one where a sense of hospitality and good cheer exudes from the very tables and chairs, instead of a mausoleum of gloomy elegance, wherein everything is for show and nothing to be used.
